THURSDAY, — JANUARY 10, 1856.

Important Notice.

We find it necessary to call the attention of our yearly advertisers to the fact that after the 1st of January, 1856, we shall confine them strictly to their contracts, or, what amounts to the same, charge extra for all over and above. Some of our advertisers have been getting about twice as much as their contracts called for; we cannot permit it any longer. See our published terms.

Report of the Postmaster General.

We publish upon our first page this morning the report of Postmaster General Campbell. It is a plain, clear statement of the business of this Department; worthy the close and careful perusal of all who wish to understand the affairs of this, the most complicated branch of the public service.

The President's Message.

We publish this morning the opinions of the press on the President's message. There has not in many years been issued a state paper which has not with more universal favor in this country. There is but here and there a faint, feeble echo against the message, and by papers whose Abortion tendencies have thwarted their vision. Here are the sentiments of some of our exchanges now at hand:

We like the message. It is exactly such a document as we expected, a frank, concise, and to the point. There is no shuffling or evasion in any of the great questions of foreign or domestic policy; but while it is calm and dignified, it is at the same time firm and unfeeling. Its doctrine are those of a statesman, and a lover, not only of the Union, but of the future glory of our beloved country.—*Frankfort* (*Ky.*) *Democrat*.

We confess we are gratified that the President's message is held in high regard. The people, at least, are in love with the spirit of the country. Now let us see how long Congress will remain in a state of disorganization.

Richmond Daily Dispatch (Independent).

The message is brief, written in a frank, unadorned style, and should be generally read.

Baltimore American (Opposition).

For lucid order, compact, concise, and compression, and for fitness and tenacity of purpose expressed with a modesty emanating from conscientious rectitude, this message is excelled by few State papers that have illustrated our annals.

Richmond Enquirer.

The Cleveland Plain Dealer, says:

The President has thus fulfilled the expectation of his most sagacious friends. For clarity, brevity, and succinctness, the message is unequalled. There are no evasions, no evasions, and no ambiguity in its language. It is simple and clear, and is easily understood.

The resolutions which we furnish below are especially worthy of the gallant Democracy of our sister State, and must command the hearty approval of the entire South.

The Convention was called to order and organized by the selection of the following prominent officers:

FOR PRESIDENT.

Hon. JOHN L. ROBINSON, of Rush.

VICE PRESIDENTS.

First District—John Law, of Vanderburgh.

Ninth District—W. P. Bowes, of Lapeer.

Tenth District—Albert Heath, of Elkhart.

Eleventh District—Wm. Norton, of Huntington.

C. B. Bentley, of Franklin.

J. B. Norman, of Floyd.

After Mr. Robinson took his seat he addressed

the Convention in warm and glowing sentiments of Democracy, and informed them that his name was not before the Convention in connection with the office of Governor. His speech, which was an admirable one, called forth the most rapturous applause, after which the Convention proceeded to business.

The result, in brief, was the nomination of the following ticket, a portion of which we announced in our dispatches yesterday. Here is the ticket complete:

Governor—ASHER P. WILLARD.

Lieut. Governor—Col. J. C. WALKER.

Secretary of State—Daniel McCleure.

Auditor of State—Gen. J. W. DODD.

Treasurer of State—Aquilla Jones.

Attorney General—Joseph E. McDonald.

Superintendent of Public Instruction—William C. Larabee.

Clerk of the Supreme Court—Wm. B. Beach.

Reporter of the Decisions of the Supreme Court—Gordon Tanner.

In the afternoon the Committee on Resolutions reported the following:

The Committee on Resolutions, through their Chairman, Judge Hughes, made the following report:

WHEREAS, The time is near at hand when the people of Indiana will be called upon to indicate an expression at the ballot box the measures and policy which they approve, and wish to have adopted in the administration of their government;

Resolved, That the Democratic party of the State, here in convention assembled, in conformity with established usage, and with a firm reliance on the virtue and intelligence of the people, submit the following resolution:

We approve the principles of the compromise measures of 1850, and their application as embodied in the Kansas-Nebraska bill, and will faithfully maintain them.

We recognize the great body of the people as the only true friends to the decisions of the people, and open appeals to their reason and patriotism as the legitimate means of influencing their action, and we utterly condemn all associations and combinations for political purposes performed to govern the people, and obtain the ascendency of any individual, party or to impair the existence of free and independent judgment among them. And we hold in abhorrence all secret political orders and organizations, deeming them dangerous to the stability of government and the rights of the people.

We are in favor of religious toleration, as the founders of our republican institutions achieved and underlaid it, and secured its enjoyment by constitutional guarantees; and we declare that it will not be maintained free from invasion, either by means of regular troops, or, on the contrary, by armed and arbitrary provisions of political parties, founded on the mere ideas of intolerance.

On motion, the Secretary was requested to furnish each of the Cincinnati daily papers, having a general circulation in this city, with a copy of the proceedings of this meeting, with a request that they be published the same.

On motion adjourned till next Tuesday evening at 6 o'clock.

— A. S. GREER, President.

R. K. SUMNER, Secretary.

— We copy the following from the Cincinnati Commercial of the 5th inst:

Railroad Matters in Kentucky.

At a meeting of the citizens of Covington, held at the City Hall, on Saturday evening, January 5th, the following resolution was adopted:

The proprietors of the railroads, the present Legislature of Kentucky to submit to the voters of the State, the proposition to extend aid to the line of railroads extending South connecting with the Covington and Lexington Railroad—

In motion, the Champaign and Illinois Railroad, and the Rock Island, were voted in favor of the proposition.

On motion, Col. John W. Stevenson, W. Arthur, and W. Grant, were appointed a committee on resolutions, and were directed to report to an adjourned meeting to be held at this place on Tuesday evening next January 8th.

On motion, the Secretary was requested to furnish each of the Cincinnati daily papers, having a general circulation in this city, with a copy of the proceedings of this meeting, with a request that they be published the same.

On motion adjourned till next Tuesday evening at 6 o'clock.

— A. S. GREER, President.

R. K. SUMNER, Secretary.

— We were glad to see a better house at the theatre last night than has been presented this week, because Miss Bridges deserves full credit.

She has not yet learned to measure exactly the effect of her style upon the audience, but she will daily improve. There is something natural, beautiful, and gentle in her manner that delights every one.

While we esteem it the duty of government to foster and protect religion without invidious preferences, leaving it free to choose among different creeds, and open to all the means of instruction, and while we do not wish to interfere with the religious freedom of any, we do not desire that any should be compelled to attend any particular church.

— We lay it before our readers with the full confidence that no one will rise from its perusal with other feelings than of pleasure and gratification. It is clear, succinct, and evidently truthful, whilst its whole tone and bearing is that of the pure patriot and nothing else.

N. Y. *Daily Times*, (Opposition.)

It is an interesting and well written paper, and will be eagerly read by everybody.

Peterson's Express (Opposition):

The N. Y. Mirror says:

"The conduct of the President's course in the discharge of his functions is general, and the only regret in this, that he did not send it weeks ago. The House is fairly scrubbed, and if it refuses not to receive the message, the country will not care much. The President has done his duty, and set a good example."

The St. Louis Republican has an article of some length commanding the policy of this message, from which we make this brief extract:

We take it for granted that our readers have generally formed their opinion of this message. There is no concealment or equivocation about it. What he says about our relations with Great Britain will receive the general assent and support of all parties in the Union.

It publication is a real boon to the country, as it will relieve the public mind of the anxiety which has been created by our foreign relatives, while it will tend to allay the apprehensions of various difficulties with England and other foreign powers.

We like the President's views on the Danish Sound dues. They are temperate as well as just.

N. Y. *Commercial Advertiser*, (Opposition.)

We lay it before our readers with the full confidence that no one will rise from its perusal with other feelings than of pleasure and gratification. It is clear, succinct, and evidently truthful, whilst its whole tone and bearing is that of the pure patriot and nothing else.

N. Y. *Daily Times*, (Administration.)

We deny any individual to read these papers, and give credit to the Administration for a frank and conscientious performance of its duty. With such honorable evidences of its fairness and impartiality, it may stand up proudly before the world, satisfied that its conduct will defy calumny and defeat misrepresentation.

Phil. Ledger, (Independent.)

We have furnished the extracts above from the exchanges of a single day, and we might swell them to an almost unlimited extent—but will let them be copied to them before our readers in our next issue.

— We hope to be able to give in our present issue the resolutions adopted by the Democratic Convention at Frankfort. We did not, however, receive them by last night's mail. We will doubtless be enabled to lay them before our readers in our next issue.

— We saw a steamer—no, it was a "jumper"—full of boys yesterday, drawn by one person, and a模子模子. The progress it made was slow enough, but the boys were fast, and the large letters "O. K." on the back of the seat intimated that it was all right.

A little lad who was started to school from near the corner of Third and Broad way, even as he plodded on his way so was nearly frozen to the bone. They have given up the snow-shoed mule. Why Females Suffer in Health.

**THE MARRIED WOMAN'S
PRIVATE MEDICAL COMPANION,**
BY DR. A. M. MAURICEAU.

One Hundred Edition (600,000 copies), pp. 250,
standard work of established reputation, found clas-
sed in the catalogues of the great Trade Sales of New
York, Philadelphia, and other cities, and sold by
the principal booksellers in the United States.

Every woman can here discover, by comparing her
own symptoms with those described, the nature, character
and cause of every complaint, as well as the consequences
of making known to, or making inquiry of, a physician
respecting the numerous ailments to which she is sub-
ject. The wife about becoming a mother has often
need of instruction and advice. In respect to her situa-
tion, a valuable book will find this. This book tells her what
is to be done, and how to do it, for the benefit of
her child, husband, and such as share her home.

Those suffering from obstructions or irregularities peculiar
to the female system, or from prepuce states (falling
of the womb), or from *faux alises*, will find each in
it page the means of prevention, amelioration, and
relief.

Much distress of mind, as well as thosse pecuni-
ary expenses saved by the husband, if there
was a sparing to the marriage state were better un-
derstood. That they are better understood is traceable
to that natural and almost commendable sensitiveness
that will rather suffer than consult or converse with
even a medical man in respect to complaints peculiar
to the female only.

In *The Married Woman's Private Medical Companion*,
"every female physician, who knows
and describes her every symptom, feels, and thinks
and which she can consult at all times without violence
to her sensitiveness."

Extract of a letter from a gentleman in Dayton, Ohio:

"Dr. A. M. MAURICEAU—My dear Sir:—I have
been perplexed enough for some three years or more,
in consequence of great anguish and suffering com-
plained of by my wife, to make me seek out every
physician in the city in imminent danger, and which
on one occasion I was compelled to pay for the
service of a physician who had no sympathy with
the cause of illness, and resigned myself to
greater suffering, until I found this book, which
contains some matters relating to my case. On its re-
ceipt and perusal I cannot express to you the relief it
afforded me, and the comfort it gave to my wife, who
was anxious to learn that the great discovery of
the cause of her trouble was remedy. It was possible, but
best to me, that little could be done. But for this,
she another year would have passed over
her bed, and I am sure she would have died
in her grave, and my children left motherless."

Upon receipt of ONE DOLLAR, "THE MARRIED
WOMAN'S PRIVATE MEDICAL COMPANION" is
sent free, and part of the proceeds of the sale
of this book will be given to the American
Red Cross Fund.

Every Day Brings Something New.

So much has been said about Ambrotype, Photo-
graphs, and Daguerreotypes that we hardly know which
deserves the palm. There is one thing, however, that
we feel justified in saying to our lady readers, and that
is: If they will visit Rousseau's Mammot Daguerreotype

they will be perfectly satisfied.

Necessaries of Life.

Fine, Whisky, and Tobacco have long been regarded
as necessities of life—it is a mistake. We can't
say that we are not fond of them, but we do not
desire the temperance men won't drink Whisky
and the Tobacco crop is a failure. What we can't get
is plain we must do without, and what we can do with-
out is not a necessity. The proverb, then, is a falsehood.

But one of HAREL'S Daguerreotypes—bright
sparkling, rich, bold, and clear—that we can get
and cannot do without—is a necessary of life.

Nervousgia.

This formidable disease, which seems to baffle the
skill of physicians, yields like magic to CAZIER'S
SARAPARILLA MIXTURE.

Mr. F. Boyd, formerly of the Astor House, New
York, and last summer of the Hotel Metropoli-
tan, is one of the hundred who have been
cured of severe Nervousgia by Cazier's Spanish Mix-
ture. Since his cure he has recommended it to numbers of
persons who were suffering with nearly every form
of disease, with the most wonderful success. He says it is
the most extraordinary medicine he has ever used, and
the best blood purifier known. See advertisement
in another column. J. Addeus.

The best evidence that can be adduced in favor
of the efficaciousness of this mixture is the fact that
the proprietress of the Hotel Jackson, is the unprejudiced
and thorough man who first used Whisky
and the Tobacco crop is a failure. What we can't get
is plain we must do without, and what we can do with-
out is not a necessity. The proverb, then, is a falsehood.

But one of HAREL'S Daguerreotypes—bright
sparkling, rich, bold, and clear—that we can get
and cannot do without—is a necessary of life.
